The 2014 Tampa Deanery Dominican Republic Mission Project Iglesia Santa Cruz Ingenio Santa Fe, Dominican Republic

The Tampa Deanery project for 2014 is to complete the exterior and first floor of the new church for Santa Cruz (Holy Cross) Episcopal Church in the sugar mill (Ingenio) town of Santa Fe on the edge of the city of San Pedro de Macorís (pop ~ 250,000). For the past two years the Tampa Deanery has worked in Santa Fe, building the “shell” of the two-story reinforced concrete church building. During the summer of 2014, we will send four work teams to work with our brothers and sisters in the community of Santa Fe, a poor working-class suburb on the edge of San Pedro on the southern coast of the Dominican Republic. There are still spaces available on all four teams. If you are interested on participating on a team, please contact Bill Kunkle at 813-400-2722 or e-mail him at <bkunkle@dominicandevlopmentgroup.org>.

Team I	June 7-14	Build altar furnishings, electrical, and floor tile
Team II	June 14-21	Paint interior and exterior of new building and seal the roof
Team III	June 21-28	Finish painting, sidewalks, and landscaping
Team IV	June 28-July 5	Finish altar furnishings and work in the community

This year’s mission marks the 15th consecutive year that teams from the Tampa Deanery have traveled to the Dominican Republic to work with our companion diocese to build churches, clinics and schools.
